

AHMER AFTAB

AI-Focused Full Stack Developer

Karachi, Pakistan | +92 315 002 2499 | ahmeraftab02@gmail.com | github.com/ahmeraftab | linkedin.com/in/ahmer-aftab-945885115

SUMMARY

Full Stack Developer specializing in AI-powered products, RAG pipelines, and production LLM integrations. Proven experience building multimodal RAG assistants, deployed AI chatbots, and full-stack web/mobile applications using React, Next.js, FastAPI, and Python, comfortable owning features end-to-end from backend logic to deployed, user-facing product.

EXPERIENCE

Full Stack Developer

Sep 2025 - Mar 2026

Evolisyss | Karachi

- Delivered end-to-end features for a multi-role service marketplace across web and mobile using React, Next.js, and React Native, shipped across multiple production releases.
- Designed and integrated RESTful backend APIs with PostgreSQL workflows, improving data consistency and reducing latency across core features.
- Collaborated in agile sprints across frontend, backend, and QA to ship high-impact features on schedule.

Web Developer Intern

Jul 2024 - Sep 2024

PhantomCave Game Development | Karachi

- Developed responsive web interfaces using HTML, CSS, and JavaScript; built Node.js backend APIs for game data management and player leaderboard features.
- Designed SQL Server schemas for player authentication and game analytics, optimizing read and write performance for high-frequency operations.

PROJECTS

Automated Domain Expert Chatbot | Final Year Project

React, FastAPI, Google Gemini, ChromaDB, MiniLM, Whisper STT, BLIP, MySQL, Hostinger VPS

- Built a production-deployed multimodal RAG assistant supporting document, voice (Whisper STT), and image (BLIP captioning) queries within a unified AI pipeline.
- Implemented semantic chunking with MiniLM embeddings and ChromaDB vector search; used Google Gemini as the generative backbone for accurate, document-grounded Q&A.
- Deployed on Hostinger VPS with per-user data isolation, MySQL persistence, and API-key-based third-party integration serving real production traffic.

QuickReply AI — AI WhatsApp Business Assistant

Next.js 14, TypeScript, Google Gemini, Twilio, Recharts, Vercel

- Built a production-ready SaaS demo of an AI WhatsApp assistant that answers customer questions 24/7, using a full RAG pipeline (Gemini embeddings + gemini-2.5-flash generation) for grounded responses.
- Built a live browser chat demo, an admin analytics dashboard, and real two-way Twilio WhatsApp integration.

Bella Cucina — AI Concierge

Next.js 16, TypeScript, Tailwind CSS, Google Gemini, Vercel AI SDK

- Built a full-stack AI chatbot with a branded persona, using a RAG pipeline (Gemini embeddings + cosine similarity retrieval) and token-by-token streaming via Vercel AI SDK v6.
- Built a polished multi-page UI with chat, menu, and a password-gated admin dashboard.

AI Resume Reviewer

FastAPI, Google Gemini, PDF Parsing, Vercel

- Developed and deployed an AI-powered resume analysis tool that parses PDF resumes and returns structured ATS feedback, strengths/weaknesses, and job-description match scoring.
- Built with a FastAPI backend and a clean single-page UI, deployed live on Vercel and accessible to real users.

SKILLS

AI & LLM: RAG Pipelines, Google Gemini, Vector Embeddings, ChromaDB, MiniLM, Whisper STT, BLIP, Vercel AI SDK

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, HTML/CSS

Backend: FastAPI, Node.js, REST APIs, Python, C++

Databases: PostgreSQL, MongoDB, MySQL, SQL Server

Cloud and Data: AWS (Lambda, S3, EC2), Azure, Docker, Vercel, Railway, Render

EDUCATION

Bachelor of Science in Computer Science

March 2022 - Jan 2026

Bahria University, Karachi
