AHMER AFTAB

Karachi, Pakistan | +92 315 002 2499 | ahmeraftab02@gmail.com | linkedin.com/in/ahmer-aftab-945885115 | github.com/ahmeraftab | ahmeraftab.vercel.app

PROFESSIONAL SUMMARY

Full Stack Software Engineer with an AI specialization, combining production web and mobile delivery with end-to-end AI/LLM product development and data engineering experience on AWS and Snowflake. Proficient in React.js, Next.js, React Native, FastAPI, and Node.js, with experience architecting Retrieval-Augmented Generation (RAG) pipelines and multimodal LLM integration (Google Gemini, OpenAI GPT-4o, Whisper, BLIP) into deployed systems. Comfortable owning features end-to-end, from backend architecture through to a polished, user-facing product, and working directly with stakeholders to turn ambiguous requirements into shipped software.

TECHNICAL SKILLS

AI / ML: RAG Pipelines, Google Gemini, OpenAI API, Vector Embeddings, ChromaDB, MiniLM, Whisper STT, BLIP, Prompt Engineering
Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS
Backend: FastAPI, Node.js, NestJS, Prisma, REST APIs, Python, C++
Databases & Cloud: PostgreSQL, Supabase, MongoDB, MySQL, SQL Server, AWS, Oracle Cloud (OCI), Docker, Vercel

PROFESSIONAL EXPERIENCE

Full Stack AI Developer (Project-based) — NexTek, Remote *May 2026 - Present*

- Built a procurement assistant (OpenAI GPT-4o) that lets users query live business data in natural language, including RAG-based document question answering.
- Built a multi-tenant CRM platform using NestJS, Prisma, and Next.js, deployed on Oracle Cloud with a Supabase-hosted PostgreSQL database, contributing across the full stack from backend architecture through to feature delivery.
- Collaborated directly with the client to translate business requirements into production-ready features across both platforms.

Software Engineer — Evolisyss, Karachi *Sep 2025 - Mar 2026*

- Delivered end-to-end features for a multi-role service marketplace across web and mobile using React, Next.js, and React Native, shipped across multiple production releases.
- Designed and integrated RESTful backend APIs with PostgreSQL, improving data consistency and reducing latency across core features.
- Collaborated in agile sprints across frontend, backend, and QA, shipping high-impact features on schedule.

Web Developer Intern — PhantomCave Game Development, Karachi *Jul 2024 - Sep 2024*

- Developed responsive web interfaces with HTML, CSS, and JavaScript, and built Node.js backend APIs for game data management and player leaderboard features.
- Designed SQL Server schemas for player authentication and game analytics, optimizing read and write performance for high-frequency operations.

PROJECTS

Automated Domain Expert Chatbot (Final Year Project) | *React, FastAPI, Google Gemini, ChromaDB, Whisper STT, BLIP*

- Architected a multimodal RAG assistant from scratch, supporting document, voice (Whisper STT), and image (BLIP captioning) queries within a unified AI pipeline.
- Implemented semantic chunking with MiniLM embeddings and ChromaDB vector search, using Google Gemini as the generative backbone for accurate, document-grounded Q&A.
- Deployed on Hostinger VPS with per-user data isolation, MySQL persistence, and API-key-based third-party integration.

QuickReply AI — AI WhatsApp Business Assistant | *Next.js 14, TypeScript, Google Gemini, Twilio, Vercel*

- Built a production-ready SaaS demo of an AI WhatsApp assistant capable of answering customer questions around the clock.
- Implemented a full RAG pipeline (Gemini embeddings plus gemini-2.5-flash generation) for grounded, accurate responses.
- Shipped a live browser chat demo and real two-way Twilio WhatsApp integration, deployed live on Vercel.

AI Resume Reviewer | *FastAPI, Google Gemini, PDF Parsing, Vercel*

- Built a drag-and-drop AI resume analysis tool that parses PDF resumes with pdfplumber and uses Google Gemini to generate a score, strengths/weaknesses, ATS feedback, and job-description match scoring.
- Delivered with a FastAPI backend and a clean single-page UI, deployed live on Vercel.

EDUCATION

Bahria University, Karachi Mar 2022 - Jan 2026
Bachelor of Science in Computer Science
